Other Skills

UI/UX Design, SEO, Social Media Marketing, Networking, PC Repairs, Printer Repairs.

Soft Skills

Communication, Time Management, Teamwork, Problem-solving, Critical Thinking, Customer Service, Attention to details.

EXPERIENCE

Laser Services of Guyana, Eccles, Guyana

Remote Lead Developer

August 2022 – December 2023

I was responsible for the development and maintenance of the company website and creating custom themes, landing pages, and js and wordpress plugins to meet internal requirements. In addition to website development, I used Flutter to develop an equipment tracker application for the company's vehicles and heavy machinery, as well as a work order life cycle tracker to improve operational efficiency. My most significant contribution was the creation of a centralized platform that streamlined internal procedures and tasks, incorporating third-party integrations such as Bluefolders, BambooHR, and QuickBooks. This platform was built using ReactJS and WordPress and improved the efficiency and effectiveness of the company's daily operations.

Promarketing Group, Industry, Guyana

Remote Lead Developer

February 2021 – June 2022

I leverage my expertise in HTML, CSS, and JavaScript to create and maintain websites for clients using WordPress, while also developing custom themes and designing landing pages. I also provided website maintenance to ensure optimal performance and user experience. In addition, I expanded my skills to include Flutter, which allowed me to build mobile apps that meet client needs. In addition to playing a critical role in creating contest portals, promotion entry platforms, and developing company standards for website development, including documentation and workflow. Through my contribution to these initiatives, I improved the efficiency and quality of website development for our team and clients, ensuring consistent outcomes that exceeded expectations.

Nurbality LLC, Atlanta, GA

Remote Frontend Web Developer

February 2019 - January 2022

I gained a wealth of experience in website development, using my knowledge of HTML, CSS, and JavaScript to create and maintain websites for clients. In addition to working with WordPress, Expression Engine, React, Angular applications and gained proficiency in these frameworks and platforms. I was responsible for modifying WordPress themes and plugins, Creating React components, and building landing pages that delivered high conversion rates. Worked on several internal angular applications that allowed Nurability's customers to open tickets, pay invoices, and request development resources. As a key team member, I collaborated with external development teams to deliver projects on time and to the highest standard. I also provided ongoing website maintenance and content updates. Through my commitment to quality and dedication to problem-solving, I played a crucial role in the successful delivery of projects that exceeded client expectations.

SocialRank Media, Georgetown, Guyana

Junior Web Developer

September 2018 - August 2019

I was responsible for managing client relationships and conducting regular client meetings to discuss project requirements and progress. I utilized wireframing tools to create website layouts and worked extensively with WordPress development to bring those designs to life. To ensure successful project outcomes, I provided clients with training on how to use the products we created. Additionally, I oversaw email campaigns and worked closely with marketing teams to deliver effective messaging that drove conversions.

SABESTIAN S. LUCIAN

_ WordPress Developer _

My name is Sabestian Lucian. I am a web and mobile app developer with five years of development experience. Specialized in WordPress for web and Flutter for mobile development, I also have extensive knowledge and prior experience with PC and Network repairs and maintenance.

I am writing to express my strong interest in any open positions at your organization, as I am currently enrolled in a 2 year programme at Sheridan College and looking for a part time role as my work permit allows. I am willing to start at any position and work my way up. With my extensive experience in development and networking expertise, I am confident in my ability to contribute effectively to your team while delivering high-quality results.

While my current academic qualifications may not include specific certifications, my hands-on experience and knowledge in technical troubleshooting and IT support, coupled with a strong background in software development, make me a valuable asset to any company.

I am a hard worker and a fast learner. If I am tasked with something I don't yet know how to approach, I guarantee I will learn how to get it done. I would really love this opportunity to work with you and expand my knowledge and skills while also enhancing your organization.

I would appreciate the chance to meet and discuss with you my qualifications in more detail. I am available at your earliest convenience and I can be reached at s.lucian52@yahoo.com or info@sabestianlucian.com.

Thank you for your time and consideration.

Sincerely,

Sabestian Lucian
